DETAILED ACTION

1. Applicant's amendment, filed 9/8/06, is acknowledged.
2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: It does not identify the citizenship of Audrey Goddard and William I. Wood inventors.

REASONS FOR ALLOWANCE

3. The following is an Examiner's Statement of Reasons for Allowance:

In view of Applicant's arguments filed 9/8/06 in conjunction with *in re Deuel* case law has obviated the previous rejection of record because the Naik *et al* disclosure of short N-terminal sequence of F11 (claimed SEQ ID NO:1) does not render the claimed nucleic acid encoding the polypeptide of SEQ ID NO: 1 prima facie obvious. Further, *in re Wallach*, 378 F.3d 1330, 1333-1334 (Fed. Cir. 2004), the court stated that "Appellants did not claim the nucleic acid molecules that encode the simple protein sequence that they disclosed. Rather, they claimed the nucleic acids encoding a protein for which they provided only a partial sequence. Appellants concede that it is now known that urinary TBP-II has a sequence of 185-192 amino acids. Without the approximately 95% of the amino acid sequence that Appellants did not disclose, we cannot say that the DNA molecules claimed in the '129 application have been described".

Accordingly, claims 49-53 drawn to an isolated nucleic acid molecule comprising a nucleotide sequence encoding the polypeptide of SEQ ID NO:1 with or without signal sequence, a vector, a host cell and a process for producing, are deemed allowable.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
